### SUMMARY

I am a passionate computer engineer specializing in machine learning, deep learning, data science, and artificial intelligence. With a strong proficiency in Python, I develop intelligent, data-driven solutions to solve complex real-world problems and drive innovation. My experience in Node.js, React.js, and foundational front-end development complements my core expertise in Machine Learning, Data Science and related domains enabling me to contribute effectively to versatile projects. I am committed to continuous learning and staying at the forefront of technology while making impactful contributions. My objective is to work on transformative projects that advance the boundaries of AI and data science, creating innovative solutions that shape the future of technology.
